

MICRO FIBER & CAR CARE PRODUCTS

- Thanks to advanced micro-fiber technology, it's now possible to wash, dry or dust any vehicle more efficiently than with ordinary towels, chamois, etc.
- The micro-fibers excel in both wet and dry use.

CALIFORNIA CAR DUSTER

CCD1

- Original California Car Duster® has specially wax- treated cotton strands that literally lift dust off.
- Saves time & cuts down on the number of times a car needs to be washed
- Keep your stock looking “factory new” with this revolutionary, easy-to-use product
- No need to clean.
- The older and the dirtier it gets the better it works
- Guaranteed not to scratch vehicle exteriors

DASH DUSTER

CDD1

- Original California Dash Duster® has specially wax- treated cotton strands that literally lift dust off.
- Specially designed for vehicle interiors, this unique compact, wedge-shaped duster easily accesses hard-to- reach areas.
- The Original California Dash Duster® performs superbly and reliably for months.

CALIFORNIA DRY BLADE

CDB1

- Dries a car in a third of the time
- For use on body and windscreen
- Ultra flexible water blade.
- Made from medical silicon
- Two sizes available
- Designed not to scratch

CALIFORNIA JELLY BLADE

CJB001

- Patented T bar edge whisks water away.
- Ultra soft silicone conforms to curved surfaces.
- New flexible handle helps mould to shapes
- Virtually eliminates chamois & towels
- Dries windows & cars in 1/3 of time.
- Out performs all other drying devices

THE ORIGINAL CALIFORNIA MICRO MITT

CMMITT

- The softest touch your car will ever feel
- Micro fiber wash mitt

M-FB-P9943-80

- Perfect for preventing damage and contamination during car washes.
- Universal size fits most applications.
- 2mm thickness ensures durability.
- Conveniently packed 500 per roll.

Why is INTERIOR PROTECTION so important!!!!

It's simple this range of products is aimed at customer satisfaction and more importantly ensuring customer retention. And all this for the price of a cup of coffee!

Why use Interior Protection? (seat covers, floor mats, steering wheel covers)

Cleanliness matters more to the customer than you think!

- ! A mere fingerprint can smudge your clean reputation.
- ! As vehicles get more sophisticated the less people understand them and the more they judge your service work on superficial things like cleanliness.
- ! Clean up costs for seat service soils average R500. The impact on your earned reputation and customer satisfaction is 10 times that amount.
- ! Your average service centre services 7500 cars per year. This is 7500 opportunities to impress a customer and make a sale. If it is a good experience they will be back and what's more they will be happy to tell their friends about your great service.
- ! According to Lexus' statistics in the USA, an LS430 customer who purchases from Lexus for the rest of their life expectancy will spend between R5-R6 million.
- ! GM (USA) found that service soils were by far, still the biggest complaint in the service department. Also they found that only 1 in 27 would complain. (Do you think they told anybody?)
- ! Technicians wear gloves to protect themselves from service soils - doesn't your customer's car deserve the same?
